Experience

Web UX @ Love Smiles

June 2021 - Current

- Designed and launched a full website for Love Smiles to help users learn more about pediatric cancer and receive various forms of assistance.
- Responsible for the information architecture, wireframing, task-flows, user research/testing, and on-going upkeep.
- Commonly present research findings and design concepts to the Love Smiles board members.
- Balancing the design needs of different groups such as regular users, board members, and business partners and adjust designs using feedback to better serve all parties.
- Expansion of the Love Smiles website to include features such as an online store.

Office Assistance @ Pioneer Contractors

January 2018 - March 2020

- Managed ordering of various supplies and office equipment.
- Oversaw the general upkeep of the office and delegated appropriate work to other individuals.
- Was in charge of various schedules and adjusted time-tables to make sure work was done in acceptable amounts of time.

Marketing @ Santa Cruz Fighting Game Community

- Managed and organized medium to large in person events on a weekly basis consisting of discussions and prep-work before the events as well as in-person managing of crowds on the day of the events.
- Led the creation of advertising campaigns which resulted in an increase of attendance by around 100% which in turn also increased the organizations revenue.
- Established partnerships with local businesses to act as prize-support in exchange for advertisement through our social media platforms as well as on-site.
- Created advertisement visuals using photoshop which led to an increase in sign-ups immediately following the project.
